HSP Garden Buildings unveil the latest additions to their portfolio

HSP Garden Buildings have recently unveiled the latest new additions to their extensive range. The 'Reading Room' is 3470mm in height and costs £18,225. It retains all the quality and craftsmanship associated with all of HSP's products. Quality is very important to HSP and you can rest assured that the company will ensure that your garden building is both aesthetically pleasing and sturdy enough to withstand the rigours of weather and time, regardless of garden type. Weather you have a sprawling estate or a bijou courtyard, HSP will have something to cater for the most discerning of customers.

The Holkham Summerhouse will initially be available in one size that measures 3260mm in height. It has a hexagonal design with tree solid panels and three openings. In principle, it is similar to

the Lavenham summerhouse (The Lavenham summerhouse is octagonal). It is available in a range of colours. HSP Garden Buildings also offer a colour matching service to ensure that your building blends in perfectly with its surroundings. Roof options include Cathedral or Bell. The price of this building is £7619 including VAT, installation and delivery.

The company are always on hand to offer expert advice and to provide quotes. Please contact Natasha at Amino Ltd. For further information
